# WHO WE ARE

Haykazunyadz is more than a place of learning. It's a community where students are nurtured to grow with confidence, curiosity, and character. Rooted in Armenian heritage and values, our bilingual program provides students with the tools to excel academically while holding onto the Armenian values that shape them.

We believe every child is unique. By combining strong academics and enriching programs, we create an environment where students can discover their strengths, develop lifelong skills, and build a strong foundation for the future.

# OUR ELEMENTARY PROGRAM

Our K-6 grade program provides students with a strong academic foundation, bilingual learning, and enriching opportunities that support growth in every area of development.

Our elementary curriculum builds directly on the foundation established in preschool, following California standards while integrating Armenian language and faith-based values.
